PROFILE

ambitious developer

I consider myself to be a very talented frontend developer with knowledge of Python and Java. I can perform well under pressure.

pressure and feel at ease in a variety of circumstances. I can work well with others because I have strong interpersonal skills and am a good communicator. I have a strong interest in web development and am eager to contribute at every stage of the process. I'm sure that my technical know-how and personable traits will make me an invaluable member of any team.
